

A purple cylindrical container with a white geometric pattern. The pattern consists of interlocking lines forming a series of diamonds and squares. A white rectangular label is centered on the front of the cylinder, featuring the text "BRAND NAME" in a bold, sans-serif font. The container has a slightly flared top and bottom edge.

The diagram illustrates a 128-bit block cipher structure. The input is a 128-bit block (16 bytes) divided into two 64-bit halves. The first half is processed by a function F , and the second half is processed by a function G . The outputs are then swapped and combined to produce the final 128-bit output.
