HEALTHY AND DURABLE GLASSWARE:

Without Lead, Cadmium, Arsenic, and Other Metals make thinner, lighter, capable of withstanding thermal shock, scratch, and break-resistant, Create a Healthy Life.

STYLISH DESIGN:

With a glass lid and filter for loose teas or blooming teas. Just put the tea or coffee bag into the inner cup and add some water, then the inner cup releases infused tea directly into the outside drinking cup.

PERFECT FOR HOT OR COLD DRINKS:

The contemporary cups keep the temperature of liquid hot or cold for a longer period of time while the outer glass wall remains comfortable to the touch, which can suffer from -4°F to 300°F.

Inner cup with 12 narrow openings near the bottom acting as strainer
