

## **7mm Thickness Votive Candle Holder - Tealight Candle Holder for Wedding, Party, Holiday and Home Decor**

The characteristic of this glass is the glass wall thickness with 7mm, this is rare to see on the market, because it is not easy to produce.

It is not able to pass thermal shock test if the glass is not annealed very well, which means it's to break while in lighting the candles.

This votive glass is suitable for both poured candles or tealight candles, it is a good choice for party, birthday, bath, dinner table etc.
