

MDF Wooden Lid For Candle Holders OEM&ODM

Cupwind offers sealed wooden lids for [candle holders](#), we have our own designers to come up with ideas and our subcontract factory will help us with manufacturing. We already have many existing molds for common candle holders, such as the size for 8090, 88100, 1010, 1212, 1515 etc.

These wood jar lids are made of natural wood which is safe to use, never get deformed or rusted. To ensure your lids fit perfectly for a long time, keep them dry and don't put them in the dishwasher! Simply wipe clean with a dry cloth.

A sealing gasket is embedded in the middle of the wide mouth candle jar lids for seal, which is not easy to age, wear-resistant, and has good sealing performance. It makes the candles dustproof and more safety when hold on.

Packaging and pallet process:

Corrugated carton with cross board dividers, safe for international shipments.

Customized size, wooden material, brand name requirements are acceptable.
