Oferecemos caixa de presente por atacado também. Se a caixa de presente não for necessária, a maneira comum que estamos usando é embrulhar cada vidro de castiçal de cimento por um saco opp para evitar poeira, então cada caixa de papelão embala 48 peças de vidro de vela separado por um divisor de ovo. Paletes de madeira são sempre eficientes durante o transporte, e adicionaremos uma rede de algodão no local da porta para que não caia ao abrir a porta do contêiner.
